1. The airfield was 3 or 4 km. NE of the town center of Gorlovka (38°34'N/48°16'N), Ukrainian SSR.
2. Flying with five to eight biplanes was observed daily.
3. The airfield, about 300 x 800m, was SW of Gorlovka, about 3 km west of the railroad line to Stalino (37°48'N/47°55'E).
4. The airfield had no runways or buildings and seemed to be an auxiliary training field of a pilot school*. Only three UT-2 trainers were permanently stationed at the field. Individual parachute jumps were made from these planes at altitudes of 800 to 1,000 meters.
5. The airfield, about 2km square was some kilometers west of Gorlovka. Training flights with biplanes were observed.

██████████ Comments: This information does not agree with the information obtained from other sources, covering the same period, which state that there is a runway and several hangars at this field
